## Section 2 - Hazards Identification

Emergency Overview: Product may irritate the respiratory tract, skin, and eyes.

CAUTION: Keep out of reach of children.

Route(s) or Entry: Eyes, Inhalation, Skin, and Ingestion.

Health Hazards (Acute and Chronic):

Inhalation: Inhalation of mist may cause irritation of the upper respiratory tract

Eyes: Irritation of eyes.

Skin: Contact may cause irritation. Prolonged or repeated exposure may lead to reddening of skin, dermatitis, or

other skin reactions. Harmful if swallowed.

**Medical Conditions Generally Aggravated by Exposure:** 

None Known. Preexisting respiratory conditions may be aggravated by exposure to mists.

| Section 3 - Composition Information on Ingredients |            |  |
|--|------------|--|
| Ingredient   | CAS reg. # |  |
| Urea   | 57-13-6    |  |
| Ammonium Hydroxide                                 | 1336-21-6  |  |
| Iron Sulfate                                       | 7720-78-7  |  |
| Citric Acid  | 77-99-9    |  |

| NFPA HAZARD RATING: |          |   |              |
|---------------------|----------|---|--------------|
| 0                   | Least    |   |              |
| 1                   | Slight   | 1 | Health       |
| 2                   | Moderate | 0 | Flammability |
| 3                   | High     | 0 | Reactivity   |
| 4                   | Severe   |   |              |

<sup>\*</sup>Ingredients not specifically listed are considered to be non-hazardous

## Section 4 - First Aid Measures

**Inhalation:** Remove person to fresh air and assist breathing as needed. Seek medical attention if irritation persists.

Ingestion:

Ingestion:

Seek medical attention or call a poison control center immediately. If conscious, have victim drink large quantities of water or milk. DO NOT INDUCE VOMITING. Never give anything to a person who is unconscious.

Eyes: Flush with clean water for at least 15 minutes. Lift eyelids to facilitate irrigation. Seek medical attention if eye

irritation persists.

Skin: Remove contaminated clothing and wash before re-using. Flush skin with water, and then wash with soap

and water. Seek medical attention if skin becomes irritated.

After first aid, get appropriate in-plant, paramedic, or community medical support.

## Section 5 - Fire and Explosion Hazard Data

Extinguishing Media: Materials suitable to surrounding fire.

**Special Fire Fighting Procedures:** Wear self-contained breathing apparatus and full bunker gear. Smoke and fumes from fire may contain hazardous components.

**Hazardous Combustion Products:** Oxides of nitrogen and other toxic gases my be formed in a fire situation. Carbon monoxide and other asphyxiates may form as well.

**Unusual Fire and Explosion Hazards:** Closed containers may explode from vapor expansion in high heat. Contain run-off by diking to prevent contamination of water supplies.

SDS: 15-0-0-6Fe Page 1 of 3

## **Section 6- Accidental Release Measures**

**Small Spills**: Clean-up personnel should protect against mist inhalation and skin contact. Avoid generating mists. Spills should be cleaned up immediately to prevent spreading.

Large Spills: Clean-up personnel should protect against mist inhalation and skin contact. Avoid generating mist.

**Containment:** Do not release into sewers or waterways. Dike spills to prevent contamination to water supplies. Contain spills and absorb liquids by covering with clay or other absorbent material. Vacuum, scoop, or sweep up waste and place in a container for disposal.

#### Section 7 - Precautions for Safe Handling and Use

**Precautions to Be Taken in Handling and Storage:** Store in cool, dry areas away from children, feed and food products and sources of heat. Immediately clean up spills that occur during handling or storage. Protect from freezing. Keep containers closed when not in use. Do not store in aluminum or metal vessels.

Other Precautions: Consult Local, State, and Federal regulations pertaining to storage and disposal.

#### Section 8 - Control Measures/Personal Protection

**Respiratory Protection:** Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a properly FIT TESTED MSHA/NIOSH-approved respirator.

**Ventilation:** Local Exhaust: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs. Local exhaust ventilation is preferred.

Protective Gloves: Wear chemically protective gloves.

Eye Protection: Wear protective eyeglasses or chemical safety goggles. Contact lenses are not eye protective devices.

**Other Protective Clothing or Equipment:** Wear chemically protective boots, aprons, and gauntlets to prevent prolonged or repeated skin contact.

**Work/Hygienic Practices:** Never eat, drink, nor smoke in work areas. Practice good hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

| Section - 9 Physical/Chemical Characteristics  |                       |                   |                 |
|--|-----------------------|-------------------|-----------------|
| Physical State:  | Liquid                | Specific Gravity: | 1.34            |
| Vapor Pressure (mm Hg):  | Not determined        | Freezing Point:   | Not determined  |
| Vapor Density (Air = 1):   | Not determined        | Boiling Point:    | >200° F         |
| Solubility in Water (wt.%):  | Miscible              | pH:               | 7.3             |
| Appearance and Odor:   | Brown Liquid, No Odor | Flash Point:      | Non-combustible |
| Note: The physical characteristics are typical values based on material tested but may vary from sample to sample. Typical |                       |                   |                 |
| values should not be construed as a guaranteed analysis of any specific lot or as specification terms.                     |                       |                   |                 |

## Section 10 - Reactivity Data

Stability: Product stable at room temperature in closed containers under normal storage and handling conditions.

Chemical Incompatibilities: Strong acids and and bases. Calcium products.

Conditions to Avoid: Avoid excessive heat.

Hazardous Decomposition Products: Oxides of sulfur, nitrogen, and other chemicals may be formed in a fire situation.

Carbon monoxide and other asphyxiates may form as well.

Hazardous Polymerization: Will not occur.

SDS: 15-0-0-6Fe Page 2 of 3

## Section 12 - Ecological Information

Soil Absorption/Mobility: Mobile in soil profile.

May be toxic to aquatic organisms. Do not contaminate water when disposing of equipment wash waters. Do not apply to areas where surface water is present or to areas directly adjacent to potable water supplies.

#### Section 13 - Disposal Considerations

Waste: Dispose of in accordance with applicable Federal, state and local laws and regulations.

Container: Triple rinse (or equivalent) the empty containers. Then offer for recycling or reconditioning.

RCRA Characteristic: None

## Section 14 - Transport Information

Not regulated by the U.S. DOT as a hazardous material in any package size.

| Section 15 - Regulatory Information |  |     |      |
|-------------------------------------|--|-----|------|
| SARA Hazard I                       | Notification/Reporting                           |     |      |
|                                     | Immediate:                                       | Yes |      |
